DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

Claims 1-17 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Reznik in view of Spadaccini in view of Isley of record for reason of record.

Response to Arguments

Applicant's arguments filed 7/2/07 have been fully considered but they are not persuasive.

Applicants characterize the Reznik patent as merely teaching the treatment of a water based fluid with hydrogen for watering plants or for spraying in the air to reduce the redox potential of an interior atmosphere.

Applicants however fail to discuss the Reznik patent's teaching of the treatment of a hydrocarbon-based fuel with hydrogen, which lowers the redox of the fuel (see col. 16, 50-55). The lowering of the redox potential is by the formation of water (see col. 2, lines 65-67).

Applicants further argue that there is not motivation and that the references are from different fields of endeavor.

As shown above, the Reznik patent is from the same field of endeavor, because it treats a hydrocarbon fuel, which is what all three references are directed to. Furthermore, the examiner recognizes that references cannot be arbitrarily combined and that there must be some reason why one skilled in the art would be motivated to make the proposed combination of primary and secondary references. In *re Nomiya*, 184 U.S.P.Q. 607. However, there is no requirement that a motivation to make the modification be expressly articulated. The test for combining references is what the combination of disclosures taken as a whole would suggest to one of ordinary skill in the art. In *re Simon*, 174 U.S.P.Q. 114; In *re McLaughlin*, 170 U.S.P.Q. 209. References are evaluated by what they suggest to one versed in the art, rather than by their specific disclosures. In *re Bozek*, 163 U.S.P.Q. 545.

All that is required to show obviousness is that the applicant "make his claimed invention merely by applying knowledge clearly present in the prior art. Section 103 requires us to presume full knowledge by the inventor of the prior art in the field of his endeavor." In *re Winslow*, 151 U.S.P.Q. 48 CCPA (1966).

Accordingly, the claims stand rejected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
